FE FORTUNE ENGINEERING WORKS

EOT crane: RFQ checklist

Send us as much of this as you have. A partial list is enough to start a price.

1 PROJECT

- ☐ Project name and site location (city and state)
- ☐ Date you need the crane at site
- ☐ Your company name and the person we should contact

2 CRANE

- ☐ Single girder or double girder
- ☐ Safe working load (SWL) in tonnes and number of cranes
- ☐ Span, and lift height or hook height
- ☐ Duty class, if specified (M3 to M5)

3 BUILDING AND RUNWAY

- ☐ Indoor or outdoor; ambient conditions
- ☐ Runway beam length and rail details, or whether runway beams and LT rails are to be supplied
- ☐ Headroom and side clearances, and building drawing if available

4 DRIVES AND CONTROL

- ☐ Speeds: hoisting, cross travel and long travel
- ☐ Control: pendant, radio remote or cabin
- ☐ Power supply available at site, and bus-bar DSL requirement

5 INSPECTION AND DELIVERY

- ☐ Applicable specification: IS 3177 or client specification
- ☐ Inspection stages and load test requirements
- ☐ Delivery location, and whether erection and commissioning are needed

6 COMMERCIAL

- ☐ Payment terms
- ☐ Bid or quotation due date
