FE FORTUNE ENGINEERING WORKS

Steel bridge: RFQ checklist

Send us as much of this as you have. A partial list is enough to start a price.

1 PROJECT

- [ ] Project name and project owner
- [ ] Site location (city and state)
- [ ] Date you need the steel at site
- [ ] Your company name and the person we should contact

2 STRUCTURE

- [ ] Bridge type: girder (plate, composite, bow string, open web), truss, foot over bridge or other
- [ ] Span (and number of spans)
- [ ] Number of girders, trusses or other main members
- [ ] Total tonnage, or the BOQ

3 DRAWINGS AND SPECIFICATION

- [ ] General arrangement and fabrication drawings (PDF or CAD)
- [ ] Steel grade (for example IS 2062 grade) and any plate certificates required
- [ ] Applicable specification: IS, client or railway
- [ ] Welding requirements: procedure and welder qualification records, if called for

4 INSPECTION AND TESTING

- [ ] Inspection stages you expect
- [ ] Third-party or client inspection, if any
- [ ] NDT requirements
- [ ] Test and mill certificates required with the supply

5 DELIVERY, ERECTION AND LAUNCHING

- [ ] Delivery terms: ex-works or delivered to site
- [ ] Erection or launching at site by us: yes or no
- [ ] Transport limits on the route: length, weight, height
- [ ] Packing and marking requirements

6 COMMERCIAL

- [ ] Payment terms
- [ ] Bid or quotation due date
